Case Study Theme/Protocol

1. Clinical service that the case study relates to:
 	
2. Aim of using Flo:
    a)
    b)
 	
3. Target patient cohort:
 	
4. Inclusion criteria:

Submission Organisation	
Name:	
Address:	
Who will be representing your organisation at the event on 6th November 2014	

Information relevant to the individual		
1.	Lead Individual Details:	Name :	
		Role/Position:	
		Contact Tel:	
		Email:	
2.	*Please provide a brief overview of your case study highlighting the aspects you feel are most relevant and innovative*	

Outcomes from implementation of Simple Telehealth

Please provide a brief description of the clinical and non-clinical outcomes e.g.

Improved:
  •

Increased:
  •

Reduced:
  •

Impact of Simple Telehealth on adherence

		Yes	No	n/a
1.	As a consequence of using Simple Telehealth, has the patient's adherence to their shared healthcare management plan improved?			
	Did the implementation of Simple Telehealth acted as a catalyst for quality improvements such as the introduction (or improvement) of shared healthcare management plans, or the standardisation of best practice across your team? If YES, please describe what has changed and how this has been achieved below:			
	During the use of Simple Telehealth, have patients taken a more active role in their own healthcare compared to what would have been the case with normal care?			
	During the use of Simple Telehealth was engagement and/or interaction of family, friends or carers with the care of the patient improved? If YES, please describe how this has been achieved and the impact that this has had below
